### **RECOMMENDATION OF TOBIAS JACOBSEN**

Full Control hereby testifies that we had Tobias Jacobsen as a 3d animator intern starting the 14th of May 2012 and lasting 4 weeks.

The work consisted of creating life like 3d animations of body expressions as well as facial animations for a serious gaming project using Unity 3d engine, 3ds Max, Kinect, FaceFX and other similar tools.

In this timeframe as intern Tobias showed great skills, dedication and first and foremost an understanding of delivering quality work at set dates.

He also participated actively in the social life of the company with an open and calm mind, and was well liked by all in the office.

I would not hesitate to recommend Tobias to anyone in my network as a competent job candidate.
